

## Functional Skills Support Programme – National Surgeries

The Functional Skills Support Programme (FSSP) is running a **series of free online surgeries** on different themes this summer.

The aim of the surgeries is to give practitioners the **chance to ask questions** about functional skills rollout, and **help plan and prepare their FS delivery** and assessment activities.

Each surgery can be **accessed online** (all you will need is an internet connection) and will be **facilitated by an expert on the topic** and a member of the FSSP team. The session dates and themes are:
